Notes

Managing remote messages

The CIC TUI lets you access and manage voicemails, faxes, and emails from any phone in the world. To start:

1. Dial the main CIC (corporate) phone number from a remote telephone. _____
Or dial * from a station connected directly to CIC.
2. Immediately dial (without waiting for prompts):
99 + *your extension* + *your password* + #
(e.g., 99 355 1553 #). _____

The CIC TUI prompts you with input selections. You do not have to wait for prompts to enter commands.

Many CIC TUI features described in this manual assume a text-to-speech (TTS) engine is properly installed and available to the xIC server. If no TTS engine is installed, you may hear silence in certain areas in the system where a TTS engine would normally read information.

Such areas include, but are not limited to, email and email folder access features, calendar access, envelope information and body text of a voicemail or fax, listening to Interaction Attendant schedule names when activating schedules, hearing custom status names that have not been recorded, and user names that have not been recorded. See your administrator if you have questions about whether or not you have a properly installed TTS engine.

Common shortcuts:

Listen to new voicemail:	1 + 1
Listen to saved voicemail:	1 + 2
After listening to new or saved voicemail, you can:	
Forward to an extension:	2 + <i>extension</i>¹ + 1
Reply to an outside caller:	5 + 4 + <i>number</i> + #
Check the arrival of new faxes:	2 + 1
Check the arrival of saved faxes:	2 + 2
Listen to new (or saved) email	3 + 1 (or 2)
Set status to "Out of the office":	5 + 1 + 12
Set phone to forwarded number*:	5 + 2 + 1 + <i>number#</i> + 1
* for first time access	
Record an "Out of office" greeting:	5 + 5 + 1
Activate "Out of office" greeting:	5 + 5 + 7

¹To forward voicemail to multiple extensions, separate the extensions with # and end the list with ##.

You can use this feature to dial into the system and gain access to other Inbox subfolders*. By default, your Inbox is always opened upon entering the system. When you **press 8** from the main menu, the system queries all subfolders in your Inbox and creates a dynamic menu for these subfolders. The system also creates menu options to access Sent Items and Deleted Items.

Note

Your menu options may vary, depending on the number of subfolders created below your Inbox folder. Press 0 at any time to return to the Inbox.

For example, assume you have three subfolders beneath your Inbox: Administration, Personal, and Support. After you press 8 from the main menu, CIC presents you with the following menu options:

Administration	1	Personal	3	Deleted Items	5
Support	2	Sent Items	4	Return to Inbox	0

Follow these prompts to access your custom subfolders, Sent Items folder, or Deleted Items folder.

* Subfolders must contain messages to be listed.
